We're going in a new direction ...

VEGANOSOL

ORGANIC COMPLETE FERTILIZER

Purely vegetable complete fertilizer and soil activator. **Rich in natural amino acids.**

- Improves water retention capacity
=> less dry parts
- Promotes turf removal
=> more stable turf layer
- Works against soil compaction
=> improves root growth
- No flushing of nitrogen into groundwater
- Significantly increased root growth after 2–3 years
- Long lasting effect
=> 4–6 months no fertilization necessary

Composition:

Organically bound nitrogen (N)	5.5%
Total Phosphorus (P_2O_5)	2.5%
Total Potassium Oxide (K_2O)	1.5%

More:

Sodium Oxide 1%, Magnesium Oxide 0.6%, Calcium oxide 0.15%, Chloride-free < 0.5%

Listed by **InfoXgen** suitable for organic farms.
Without genetic technology!

Technical-physical values:

Apparent density: ca. 500 kg/m³

Grain size: 0.2–2 mm

Color: dark brown

Smell: reminds slightly of molasses

pH value: 4.5–5.5

Shelf life: about two years after delivery

Storage: free of frost, dry, protect from sun

Spreading: up to 200 g/m²

Best results through harmonic composition, appropriate graining, and uncomplicated processing.
